

Please Note: Augustino's is not a gluten-free environment. We have prepared this list of menu options based upon the most current ingredient information from our food suppliers and their stated absence of wheat/gluten within these items.

Since we prepare food from scratch in our prep kitchen, wheat flours and many wheat based products are used throughout the day.

Please be aware that during normal kitchen operations involving shared cooking and prep areas, including common fryer oil and/or cross contamination due to human error, the possibility exists for food items to come in contact with other food products.

Due to these circumstances, we are unable to guarantee that any menu offering is completely free from allergens.

THAT SAID - our daughter has a severe allergy to wheat. We get it. As we do for all our customers, we take food safety very seriously.
